50 CENTS PER MONTH

GREAT STORM REAPED BIG HARVEST

Over One Hundred Perished In
Its Grip and 600 People
Were Injured

CROP PROPERTY LOSS WILL
EXCEED FIVE MILLIONS

Thirty Lives Lost in Alabama
Alone; Towns Destroyed; Wire
Loss Heaviest of Years

CHICAGO, March 22.—Partially re-
stored communication with the storm
districts in the middle west and south
indicate that the deaths will exceed
one hundred, and the injuries six hun-
dred, many being fatal. The crop
and property damage exceeds five
millions of dollars. Alabama suffered
the heaviest loss of life. Mobile dis-
patches saying that thirty people are
known to be dead. Thomasville and
Fulton, Georgia, both cut off from
communication, are reported destroyed.

All trains are late and the telegraph
companies report their losses as the
heaviest sustained in years.

Origin of the Storm

The storm originated in the far
southwest, according to the weather
bureau authorities, moved northeast-
ward over the Mississippi valley, the
lake region and was centered last
night in the St. Lawrence valley. But
the backbone of it is believed to be
broken, according to the weather fore-
cast, and its force is expended. The
disturbance swept the distance practi-
cally as great as the width of the
country in thirty-six hours.

High winds and gales marked its
passage, new records for wind velocity
were established in Buffalo, Toledo
and Cleveland where the gauges reg-
istered eighty-eight miles an hour.
Gales swept the entire lake region to-
day, skirting the Ohio valley where
the wind velocity was also unusual.

The force of the storm was felt in
Northern New York, but the southern
part of the state escaped. Colder
weather and brisk winds will follow
the disturbance but none of a stormy
character.

SIX FATALITIES IN OHIO, SCORE
MISSING AND FORTY INJURED
CLEVELAND, March 22.—Six peo-
ple are known to be dead, a score are
missing and forty were injured in the
storm in this state. Communication
with the smaller Ohio towns is still
impossible. Property damage to crops
in Ohio exceeds two million dollars.

Intense Suffering Follows
DETROIT, March 22.—Lower tem-
peratures following yesterday's storm
are causing intense suffering through-
out Michigan.

The storm was the worst in the
state's history, according to the
weather bureau. The damage cannot
be estimated because the majority of
the wires are still down, but will
probably exceed a million dollars.

The damage here is \$500,000. Crops
and orchards in the southern part of
the state suffered heavily.

All Medical Supplies Lost
WASHINGTON, N. March 22.—In re-
sponse to a plea sent direct to the
President, army surgeons and medi-
cal supplies were sent today from
Port Oglethorpe to Lower Peachtree,
Ala., which town was practically de-
molished by yesterday's storms. The
telegram to the President stated that
the town is in ruins, many persons
killed, hundreds injured, and all medi-
cal supplies destroyed. The Red
Cross Society here wired the govern-
ment of Alabama that it is ready to
render any necessary aid.

Fear Hundreds Dead
MOBILE, March 22.—Thirty are
known to be dead in Lower Peach-
tree, from the cyclone yesterday,
and forty-seven are injured. It is be-
lieved hundreds of dead and injured
will be found in the districts where
the wires are down.

PREDICT REVOCATION OF DEATH PENALTY

SACRAMENTO, March 22.—A canv-
ass of both houses of the legislature
following Clarence Darrow's anti-capital
punishment speech, showed today
that the bill abolishing the death pen-
alty is practically certain of passage.
Chairman W. H. Ellis of the as-
sembly prisons committee, said that
after a careful canvass there will prob-
ably be only ten votes against the
bill in the assembly. The vote will be
closer in the senate, but it is known
that twenty-four members favor the
bill while only eleven are expressing
opposition. The remainder are non-
committal.

ECLIPSE OF MOON EARLY THIS MORNING

There was an eclipse of the
moon this morning shortly be-
fore 5 o'clock, the exact time
being placed at 4:40 a.m., with
reports varying as to the exact
minute.
The eclipse was plainly seen
in Santa Ana. There were not
many watchers for the unusual
astronomical event, but those
who were on hand were reward-
ed by seeing the shadow of the
earth pass over Fair Luna's face.

REGISTER ADVERTISING BRINGS BIG RESULTS

The Santa Ana Daily Register,
Santa Ana, Cal.

Gentlemen:
Merits of newspaper advertising
have certainly been thoroughly
demonstrated to us in the last few
days in a highly satisfactory man-
ner.

Wednesday and Thursday eve-
nings, the 19th and 20th inst., our
quarter-page ad appeared in the
Daily Register, stating that on the
following Friday and Saturday we
would demonstrate free to allown-
ers of automobiles and motor-
cycles, "The World's Famous Car-
bon-Solvent," known as Carbon-
Nit. The result was that a large
number of machines have so far
visited our establishment and phone
calls enumerable have been re-
ceived. As a most reliable proof
of what your paper is, as an ad-
vertising medium, we would state
that as many as four enthusiastic
auto owners hailing from such dis-
tant points as Redlands, San Ber-
nardino, Riverside and Pomona
were present to participate in the
demonstration and bought Carbon-
Nit, let alone the large number of
our interested home-town people.
W. Dannatt and T. C. Sheldon,
who conducted the demonstration,
reported to us that never before in
this territory had they had the
pleasure of getting among such "a
live bunch of boosters" such as
our town alone can boast of. At-
tributing the above results, which
were certainly most gratifying, to
our ad in your paper, we are
Yours very truly,

MULE SHOES ON HORSES SHOW THE WAY

Trio of Mexicans Arrested by
Sheriff and Officers for
Barn Burglary

CRIME COMMITTED THREE MONTHS AGO

Wagonloads of Grain Taken
and Until Last Night Only
One Man Arrested

Mule shoes on horses hoofs might
be considered sufficient to lead any
ordinary trailer astray, but when
Sheriff Raddock took after the rob-
bers that partially depleted the stock
in the barn of John King near Pol-
lerino station, a point on the Southern
Pacific Railroad Company's Newport
branch, he didn't propose to let any
false clues mislead him. This bur-
glary was perpetrated about three
months ago, and today the sheriff is
satisfied that he has three of the
four men who are supposed to have
been implicated in the crime.

King lost a considerable quantity
of barley, hay, oats, harness, and
other odds and ends of more or less
value. It was plain from the indica-
tions on the ground that teams had
been used to carry off the loot. Close
inspection revealed the further fact
that the animals that hauled the
wagons were well shod with mule
shoes. These tracks were followed
and the result of the following was
that the sheriff's officer arrested
Francisco Garcia on the charge of
being one of the robbers, if not the
robber-in-chief.

This is where the feet marks
came into consideration. Garcia and
his friends called attention to the
fact that he hadn't a single mule on
his place. This was found to be true,
but it developed that some of the
horses weren't wearing any kind of
shoes. This trail was followed, how-
ever, and some of the missing sup-
plies found in the Garcia barn. Gar-
cia is now awaiting trial in the su-
perior court.

But Sheriff Raddock was satisfied
that there was more than one man
involved in the case and his men
have been diligently investigating all
the time. Last night the sheriff and
Under Sheriff Law caught a fresh
crew and went on arrested two
Mexicans; and about 4 o'clock this
morning Deputy Law and Deputy
Dean arrested another, the trio being
charged with complicity in the rob-
bery.

The three men taken into custody
are Mexicans. They gave their names
as Santiago Caranza, who was arrest-
ed in Santa Ana; Antonio Alvaris,
who was taken into custody at a
point on the Santa Ana river; and
Pablo Najer, who was caught at
Delhi.

2,000 REBELS IN MARCH TODAY ON NACO

NACO, Ariz., March 22.—Suddenly
switching from an expected attack
from Cananea, 2000 rebels comprising
the combined border bands, are mov-
ing on Naco and were reported to be
but five miles away at noon. They
had five rapid fire guns. Today, who
is commanding the garrison, is barri-
cading. A battle is believed to be cer-
tain tonight or tomorrow.

Massacre 135 Prisoners

JAUREZ, March 22.—The massacre
of 135 federal prisoners by Maderistas
at Parral, is reported in letters
brought here by refugees. It is stated
that the recent Maderista attack there
resulted in great damage to the cathe-
dral and the destruction of the cen-
tral market. Among the Maderista
victims was Guillermo Perras, secre-
tary of state of Chihuahua under Diaz,
and Rodolfo Reyes and Rodolfo Cha-
vez, prominent merchants.

DOUBLE CAPITAL STOCK IN 3 MONTHS

Wholesale Grocers Company
Is Expending to Cover All
Orange County

OVER-SUBSCRIPTION TO PRESENT CAPITAL

Enthusiastic and Harmonious
Meeting of Stockholders
to Hear Reports

With their business troubled in vol-
ume in three months' time, the di-
rectors and stockholders of the Santa
Ana Wholesale Grocers' company met
last night at the Orange County Savings
& Trust company's bank, discussed
the prosperous conditions of their mu-
tual affairs, and voted to increase
their capital stock from \$75,000 to
\$150,000.

It was an animated and interesting
meeting, and was attended by more
than a score of stockholders. The di-
rectors had called the meeting as a
directors' affair, but it was also decid-
ed to include the stockholders. As a
result the attendance of stockholders
was stated.

The directors in attendance were C.
E. Lamme, C. A. Miller, W. A. Zim-
merman, E. J. Cranston, A. E. Bennett,
L. J. Carden and F. G. Freeman. Fol-
lowing the reports that showed how
the company's business has grown in
three months it was decided to in-
crease the capital stock. Another in-
teresting feature of the meeting was
the announcement that of the present
stock of the company, \$54,000 had been
subscribed. The result of this an-
nouncement was the prompt subscrib-
ing of the amount lacking to make
the capital fully paid up. Not only
was the remaining \$21,000 worth of
stock taken up, but it was over-sub-
scribed \$5000.

The people are just beginning to
awaken to the fact that we have a
wholesale house in Orange county,"
said Director W. A. Zimmerman this
morning. "But it is because they are
waking up that the company's busi-
ness is growing so rapidly."

"Already we have three big auto
trucks delivering throughout the coun-
ty. Our plant on the Santa Fe tracks
at East First street is a veritable hive
of industry, and we are doing a larger
business every day for we have a good
thing for our people."

The officers of the company are: C.
E. Lamme, president; F. G. Freeman,
vice president; E. J. Cranston, treas-
urer; W. A. Simon, secretary, and
the other directors are W. A. Zim-
merman, A. E. Bennett, L. J. Carden
and C. A. Miller.

The assembly today passed the
Schmitt bill giving San Francisco four
additional superior courts.

The ex-President of Mexico will

SAN DIEGO'S CRACK HIGH SCHOOL TEAM MEETS SANTA ANA

Despite Threatening Weather
Contests Attract Large Num-
ber of Spectators

ENTHUSIASM RUNS RIOT FROM OPENING

Santa Ana Starts Off by Win-
ning First Event in Fine
Manner

This afternoon at 2:15 o'clock the
track and field meet between the high
schools of Santa Ana and San Diego
was commenced at Lincoln Athletic
Park.

In spite of the threatening weather
there was a good sized crowd in at-
tendance to watch the contests.

The rivalry between the schools is
such that a victory either way will
cause elation or great disappoint-
ment, according to where it strikes.
Santa Ana's popular boys started
the meet by capturing the first event,
which was the 50-yard dash. Robin-
son was first in 5 1/2 seconds. His
sprint was a dash from the jump and
he won by a couple of feet. San Diego
took second and third, those honors
going to Lina and Thompson.

The second event was the 120-yard
hurdle, and again Santa Ana was in
front with Captain West winning first
honors. Nichols of San Diego was
second; and Cridle of Santa Ana
came in third.

At the close of this event the score
stands: Santa Ana 11, San Diego 7.
The meet is well under way at this
hour, 3:15 o'clock, and the enthusi-
asm of the crowd is growing. All the
boys appear to be in good fettle.

The meet was in full blast when the
Register went to press.

7 TAXICAB BANDITS BATTLE WITH POLICE

NEW YORK, March 22.—Exchang-
ing hundreds of shots with seven ban-
dits in the business section today, the
police captured the entire squad after
a desperate battle.

the bandits fled in a taxi, firing at the
pursuing police.

Their capture was made when the
bandits' chauffeur ran his car into the
curb. None of them are believed to
have been hurt.

ed in a garage fire last night.

4 CASES HERE USING FRIEDMANN'S SERUM

Riverside Young Woman Is Latest Pa-
tient in Southern California to Re-
ceive Noted Doctor's Treatment

NEW YORK, March 22.—Dr. Fried-
mann treated thirty pulmonary pa-
tients at Bellevue hospital in the pres-
ence of government surgeons today.
Later he selected patients to be treat-
ed tomorrow at the Sinai hospital.

Case at Riverside

RIVERSIDE, March 22.—Drs. Cur-
rie and Weas, of Riverside, today an-
nounced that they have been treating
a young woman in the third stage of
tuberculosis, for four days, with the
Friedmann serum, which was obtain-
ed through Dr. Heid of Pittsburg,
who furnished the serum which Drs.
Pomeroy and ryle administered at
Monrovia yesterday to Mrs. Albert
Erickson.

The woman here testifies that the
results thus far are similar to the
exhilaration induced by a large dose
of whisky. She is a professional
nurse, twenty-five years old, but her
name is withheld.

This makes four separate places
in Southern California where the
Friedmann serum is being ad-
ministered to patients suffering from
tuberculosis of the lungs, and the re-
sults will be eagerly awaited by phy-
sicians, tubercular patients and the
general public.

Besides this new case at River-
side, Dr. C. A. Shepard, of Needles,
on the Colorado river, has inoculat-
ed seven patients with the serum.

sisted by Dr. Henry Pyle of Pasa-

THOUSAND FRENCHMEN ARE SLAIN

PARIS, March 22.—Arabs in the
Ader region of eastern Sahara sur-
rounded and annihilated an entire
French column, according to advices
received here today.

The French were crossing the de-
sert to Timuktu when they were am-
bushed by a thousand tribesmen and
virtually exterminated after a bloody
battle.

The exact number of French killed
is not known, but is believed to ex-
ceed one thousand.

SWIMS TO SHIP WITH LIFELINE THROUGH STORM

GRIMSBY, Eng., March 22.—Swim-
ming from shore to rescue a ship, with
a lifeline, and going through moun-
tainous seas, the steward of the
French bark Marc, which went on the
rocks here during a storm, rescued
the captain and mate and Trawler
Amer.

AMBASSADORSHIPS ALL ARE "UP IN THE AIR"

WASHINGTON, March 22.—Follow-
ing the declaration of the ambassador-
ship to France by William McComb,
it is reported here today that the
post will be offered Augustus Thomas,
Secretary Tumulty declared the
French post is "up in the air." Other
ambassadorships also remain unset-
tled.

MASSACRE IS CONSTANT MENACE

British Gunboats Alone Pre-
vent Slaughter of Christians
in Constantinople

AMERICAN WOMAN TELLS OF THREATENING FAMINE

Declares Situation in Turkish
Capital Grows Worse as
Time Goes On

MILWAUKEE, March 22.—
Four British gunboats anchored
in the Dardanelles alone are
preventing the massacre of
Christians in Constantinople,
according to a letter received
from Mrs. John Allen, wife of
an American engineer.

She says in her letter:

"The situation is growing worse.
The Turkish government has com-
mandered all the ferry boats to trans-
port soldiers from Asia Minor. Every
horse has been taken for service at
the front. It is impossible to leave
the city. Talks of massacre are heard
on all sides. Arabs were promised
loot if they would enlist and the Tur-
kish officers are restraining them with
the greatest difficulty. All night long
the British warships sweep the city
with their searchlights, looking for
trouble. But for their presence the
streets would run with Christian blood.
Food supplies are low and I do not
believe the city can hold out against
famine more than two months."

RAIN WELCOME THROUGHOUT COUNTY

All Crops Will Benefit With Just
the Possible Exception
of Apricots

Threatening weather for several
days finally developed into a
first-class downpour shortly after 11
o'clock this morning, with indications
for a continuation of precipitation.
If the storm should continue tonight
and tomorrow, Santa Anas will have
the privilege of witnessing the un-
usual occurrence of rain on Easter
Sunday.

The moisture will be welcome
throughout the county, although
there is no particular demand, or
need, of it. County Horticultural
Commissioner Roy Bishop said just
before the shower came, that the
rain might do a little damage in some
sections, but on the whole would be
a good thing. This is what he said:
"We don't need rain particularly at
this time, although it would be of
very material benefit. On the other
hand it might be decidedly injurious
to the apricots. The cois don't need
rain just now, but outside of this
crop I guess we are about ready for
rain if it comes."

Orange county nursery stock is
now in demand. I am advised of one
man who is coming here from Glenn
county to see about the purchase of
15,000 trees, oranges and lemons. He
will ship them to that section of the
state, north. This means about fif-
teen carloads of trees in this one
shipment. Citrus stock is being sent
out now and there will be increasing
shipments with the advance of
spring.

The rain has been general through-
out the county, and is cause for re-
joicing, as usual.

UNDERTAKERS MARK FOR LEGISLATORS

SACRAMENTO, March 22.—The as-
sembly took a sharp rap at the so-
called "Undertakers' trust" today when
it passed the Bohnett bill requiring
all financial claims of undertakers to
be presented to, and approved by, the
superior court as well as by the exe-
cutors of estates of deceased persons,
before final accounting is made.

SANTA ANA GETS BIG CROP OF COLONISTS

Trainloads of Visitors Seek
Orange County and This
City First of All

FROSTLESS FAME IS
BIG DRAWING CARD

Delighted Thousands Pay Tri-
bute of Prevailing Excellence
of Conditions Here

Still they are coming like so many mighty armies all bound for the promised land. Daily trainloads of colonists, who are more properly speaking, homeseekers, are coming to this part of the country to look about and decide where they will locate. Thousands of these newcomers are bound for Orange county. Every day the three big railroads, the Salt Lake Route, Santa Fe, and Southern Pacific, dump trainloads of colonists in Los Angeles, but many prefer to come right direct here.

While it is true that Los Angeles is the chief distributing point, the railroad officials declare that Orange county is getting more than a reasonable appropriation of the newcomers.

This statement is verified by the local officials of the Chamber of Commerce, and by Secretary Metzgar, whose duties keep him in touch with the situation. As an indication of the number of visitors coming here, the following list of people who registered in a short time yesterday at the Chamber of Commerce room may be accepted as a fair criterion:

Fred D. Patterson, John Edwards, Jr., Harry E. Schuler, Wichita, Kas.; Capt. R. D. Parker, Chicago, Ill.; N. N. W.; Jas. D. Foran, Aberdeen, S. D.; R. Lawrence, Tacoma, Wash.; Mrs. T. Churchill, Mansfield, Ill.; Fred Putnam, Boise, Idaho; Col. and Mrs. Rallston and family, Magdalena, N. M.; Marie Schellus, Mrs. C. Schellus, Gardena, Cal.; Mrs. Lucia Balboa and nurse, Boston, Mass.; Mildred Waechter, Sibylee, Wyo.; Jacob Berner, Laramie, Wyo.; Mrs. H. C. Mayer, H. C. Mayer, Springfield, Ill.; Mrs. C. S. Chase, Iowa City, Iowa; N. L. Ritzer, Mt. Pleasant, Iowa; W. A. Andrews, Beaver, Pa.; T. J. Andrews, East Liverpool, Ohio; Mrs. E. G. Holmes, Detroit, Minn.; Mr. and Mrs. J. Ellsworth Combs, La Verne Heights, Cal.

Colonist travel took a slump yesterday, the arrivals numbering only slightly over 500 persons. Nearly 5000 colonists have come to the southland in five days. As the last sale date is April 15, it is altogether probable that local passenger traffic will be confirmed in their prediction that 35,000 persons will come to the state under the rates.

Due to the increasing travel between this section and St. Paul and Minneapolis, a through standard sleeper, operating between Omaha and Minneapolis, over the track of the Chicago, St. Paul, Minneapolis and Omaha Railway, will be included in the equipment of the new Pacific Limited trains. A new time card, providing for the additional new trains and the change in the running time of the east-bound Los Angeles Limited, is now being constructed by Salt Lake officials and will be effective April 5. Assistant Superintendent Smith of Salt Lake City is here to assist in the making of this new time card.

A Square Deal or None at All

You Must Suit Us, or We Will Not Suit You.

Bluntly speaking, we have no time or place for either speculators or land sharks. San Jacinto needs farmers, farm hands and mechanics. Lots of room if you come under that classification—and none if you don't.

The Great Willow Plume alfalfa section is ready, and the price is right—that we guarantee.

Bermuda Onions the size of saucers, with flavor unsurpassed by the best that Texas ever grew. Premium potatoes, both Irish and sweet; every old thing does fine here. The cantaloupe, melons and last but not least, the pumpkin, and, say, you never saw such pumpkins in your life, from fifty to one hundred and sixty-five pounds. See the exhibit at the Board of Trade office now—a little later, everywhere.

Mr. Smith, ex-city bookkeeper, has twenty acres in the Willow Plume section, part in alfalfa, part diversified.

He will tell you that he banks \$2500 per year after providing for two families. You can't buy his ranch for \$600.00 an acre, but you can buy right beside him for \$250.00, including water. —The difference is for you. He has a fine Ford touring car and sees a few things besides.

Every place is a show place in San Jacinto valley; everybody helps everybody else out here. Come over and see if you don't feel that way about it. The water is fine, and the wind is certainly blowing this way. It stops, however, when it gets here—you will notice that, also.

Call on Mr. Edward Morris, San Jacinto, or Averill & Reilly, No. 625-6 Story Bldg., Los Angeles. They have some bargains at this time that cannot be duplicated in Southern California.

ACTIVITIES IN ALL LINES AROUND PLACENTIA

(From the Placentia Courier)

The California Vegetable Union has moved into new quarters at Fullerton in the C. C. house formerly occupied by the California Citrus Union, and expects to open up its Placentia house between the fifteenth of March and April 1st for cabbage. The market at this time is pretty badly demoralized on account of Eastern and Northern cabbage coming out of cold storage and being thrown on the market, but the prospects for later good prices are fine. May prices are expected to be good.

Mr. A. H. T. Osborne, the manager, was in Placentia last Friday looking for contractors for tomatoes for the coming season.

Geo. Wither is scheduled to build a fine modern apartment house on his lot on Main street just north of the Hurry block. The town needs such a structure and it would be a profitable investment.

"Jim" Conley is making a splendid record as road overseer. He is always on the job and is getting the roads in shape all along the line. He is now busy travelling the Richfield road east of town and it will be oiled as soon as ready. This road has long needed and is getting any attention. Messrs. S. W. McCulloch, A. Pierotti, Wm. Berkenstock and Abe Pritchard, as a committee from the Placentia Orange Growers' Association, visited San Dimas and Glendora Monday to investigate the merits of a new orange culling device employed there.

The A. U. W. Co. began work Thursday on its Anaheim pipe line.

PLACENTIA ENJOYS REALTY ACTIVITY

The second largest realty deal in Placentia's history was the purchase of the fore part of the week by the Fraser corner for \$4000. This comprises two lots improved with a one-story frame structure occupied by the Placentia Cafe and the balance of the building used for lodging house purposes. The buyers were the Marter Bros., Placentia orange growers and real estate dealers.

The Marter Bros. also report the sale of lot 19, block 1, in the Kraemer subdivision, to R. T. Davies, citrus fruit shipper and manager for the Pay Fruit Co. Mr. Davies will in about two weeks begin the erection of a \$3500 modern bungalow on the lot and make Placentia his future home.

The C. H. Lee ranch containing about seven acres was recently purchased by R. J. Laidlaw, for \$17,500. Oil lease prospects had something to do with the price paid.—Placentia Courier.

BREA ORGANIZING CHAMBER OF COMMERCE

The meeting called Wednesday evening of this week for the purpose of organizing a chamber of commerce at Brea has been postponed until the same evening of next week, says the Olinda Derrick.

Mr. Olsen, of the La Habra Valley Bank, stated the early part of this week that results obtained thus far toward this end by personal canvasses were gratifying in the extreme and that he looked for a good representative crowd out next Wednesday evening.

In view of the fact that the Standard company has already a large force of men at work leveling and grading grounds preparatory to the erection of its shops and general offices which will be located in Brea, and the assurance from the Union company that similar operations by their company will start at an early date, every citizen, whether a property owner or not, ought to at least boost a chamber of commerce movement at this time whether or not his future lies in this locality.

The entrance into Brea of the above two mentioned enterprises alone means at the very least calculation upwards of forty new families for the city, the majority of whom, will eventually become property owners, and the organization of such a body will do more toward increasing the present growth of the city than any other one thing that could be done at this time.

Brea is on the map to stay, and following close upon the heels of the final and permanent launching of a good, live chamber of commerce will come the locating of other important and necessary additions to the city, arrangements for some of which are now being completed, and the result of next week's meeting and the manner in which the people take hold of this proposition means much in influencing these to immediate operations.

Let the slogan be, "Watch Us Grow," and everybody lend a hand.

Here goes for the liveliest and best little city in Southern California.

WHEN A LAXATIVE IS NEEDED--'CASCARETS'

Gently Clean Your Liver and
Constipated Bowels While
You Sleep

Take a Cascaret tonight and thoroughly cleanse your liver, stomach and bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping your bowels clean with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.—Advertisement.

Abe Martin on Advertising
In the April American Magazine, Abe Martin, the Indiana funny man, makes the following remarks on advertising: "Speakin' of advertisin', look where Bryan is 'd'ay. The other day we were asked the question: "What are the different angles from which a motor car should be studied?" This led us to thinking about it and we have formulated a list of points which we believe to be vital in the purchase of a motor car.

The Car You Buy

Should stand rigid investigation on every one of the points: standardization of parts, depreciation or second hand value, durability, accessibility, the dealer and his policy of service, the factory behind the car, riding qualities, cost of maintenance, modern equipment, what owners say, whether car is assembled or manufactured, road ability, appearance, finish, driving qualities, oil consumption, cooling qualities, comfort, convenience and economy.

Space will not permit of a discussion of all these points at this time, nor even a complete analysis of any one of them. But take the matter of

Actual Horse Power an Engine Develops

Horsepower cannot be determined by mathematics. The thing that determines the actual rating to which a car is entitled is actual power it develops. Cadillac care and workmanship in the building of its motor result in the delivery of more power to the rear wheels than any engine its size and many of larger dimensions.

The advantages of the copper water jackets, the advantages of gauging 400 operations in the car's construction to the thousandth part of an inch cannot be told in a limited space. Suffice to say that the Cadillac motor is the most expensive to build and it has features of workmanship and construction found in no other car, regardless of price.

The Car With a Reputation

You doubtless know the Cadillac by reputation. You know it is a good car. Perhaps you've made up your mind to own one. If you don't already believe the Cadillac is the best car to buy, let's get together and talk motor cars from your standpoint—the dollars and cents' side. You can't lose by being better informed.

Mexican Deals Cruelly With an
Animal Hired and He
Pays \$25 Fine

When Genora Ayala goes out driving again he will have something to remind him how a horse shall be treated. The animal will be a living impresario of what a \$25 fine looks like when a man devotes lots of time to treating his companions of his own class whenever there is a chance to treat, but only treats a horse with forgetfulness and abuse.

Ayala admitted in Justice Cox's court that he had been driving the horse that was hired from the Pony Stables Thursday evening by another Mexican who forgot to leave his name and address. Ayala and another Mexican were found yesterday afternoon by Manager Williams of the stables, with the horse and buggy in their possession.

Before Justice Cox the testimony indicated that Ayala's companion had nothing to do with the case, further than to accompany the former on his tour for liquid refreshments. It also was ascertained that the gay and festive Ayala had taken the outfit away from the fellow who had hired it. He enjoyed himself to the fullest, but it was a hard night for the horse.

Complaint was filed by Secretary G. A. Whidden of the S. P. C. A., and the warrant was served on the accused while he was recovering from the effects of his escapade, which had resulted in his being taken to the county jail. He pleaded guilty to the charge of cruelty to animals, and the fine of \$25 was imposed. Ayala paid the fine. The other fellow hasn't been arrested yet.

AT THE COURTHOUSE

NO SESSION OF
THE SUPERIOR
COURT

Department at Court House
Busy With Usual Routine
of Their Work

There was no session of the superior court today. Judge West was occupied with many judicial matters that require his attention, and J. M. Backs, clerk of the court, was called to Colton, San Bernardino county, on some law business. He was accompanied by Attorney W. H. Thomas.

District Attorney West is expected home by Monday from Sacramento, where he has been conferring with members of the state legislature, in company with President Crookshank of the County Highway Commission, in regard to certain phases of the contemplated highway improvement work in this county. One amendment to the existing state laws, which is especially desired by the local highway commission, refers to the width of state highways.

The state law at present limits the width of roads improved under a bond issue to sixteen feet. The highway commission wants to construct a portion of the county roads twenty feet wide. It had but one recourse, and that was to ask an amendment to the law.

Mr. Crookshank returned home last night, but Attorney West had further official business to attend to in the north, but it is expected that he will be at his office Monday.

Estate Appraisement
Appraisement of the estate of Jacob M. Markwalder was filed today by Appraisers J. G. Quick and I. D. Mills, the valuation being placed at \$1100.

Amended Complaint
An amended complaint was filed this morning by Attorney Z. B. Stuart for A. Raynor, the plaintiff in the action against D. E. and Susan A. Hobbs involving the question of a proposed sale of 20 acres of land.

Baxter Vs. Boege Et Al.
Amended complaint has been filed in the suit of Malcolm Baxter, Jr., against Charles A. Boege et al., claiming to seek equitable relief.

Luther Case Continued
Another continuance was taken late yesterday afternoon in the case of the state against Walter Luther, in which fifteen-year-old Dora Kelly is the chief witness for the prosecution. Luther was to have entered his plea before Judge West but the court extended the time until Monday next.

Case Settled
An agreement has been reached in the suit of Mrs. Perrylea Hart against W. S. B. Lawrie for \$613, and the case has been settled out of court.

Interlocutory Decree
Mary A. Canfield has been granted an interlocutory decree of divorce from Calvin M. Canfield, no defense being made. It appeared that the couple could not agree and the husband simply went away.

Supreme Court Upholds
The state supreme court has affirmed the decision of the superior court and district court of appeals in favor of the plaintiff in the suit of M. L. Bellus vs. D. L. Peters, to recover the value of 10,000 shares of stock in an Orange county gas plant. Bellus, on behalf of himself and as assignee of John W. Kemp, alleged that the property belonged to the plaintiffs, and that it had been converted to the use of the defendant. The court found the allegations to be true and fixed the value of the stock at \$10,000. Bellus was one of the members of a company that purchased the Anaheim Gas company's plant, and later sold it to the Southern Counties Gas company.

THE LARGE VS. THE SMALL COLLEGE

One can see a hungry look in the rural college president's face, when he reads that Princeton university gathers in \$9,000,000 from the will of the late Ferris S. Thompson. One percent of that sum would enable Lonesomehurst university to stop the leaks in the roof of its single building.

Out of 471 colleges and universities in the United States, only 256, scarcely more than half, have even the insignificant sum of \$100,000 as an endowment. "To him that hath shall be given," while the army of pathetic stragglers on the outskirts are sending out their form letters by the thousand for dollar bill contributions.

The more prosperous universities can undoubtedly make good use of all the money that can be given them. It makes a big difference if a college can hire the best talent in the market. A \$6000 man may be able to teach his students how to think out and solve problems for themselves, where a \$2000 man would have them recite lessons out of books.

Nevertheless, there is a field for the small college, even along the fringes of population. Its students don't learn much about turkey trotting, and they don't get their pictures on the sporting page of the metropolitan newspapers. They do find that the sum of the wisdom of the ages is within easy reach of any youth who wants it, even if he has to hire a dress suit for the graduation festivities.

Would that the millionaires could see that when they endow such an institution, instead of leaving all their money in personal bequests, they exchange a monument of cold marble for one of popular affection.

An educational expert, after studying conditions in forty-four small colleges, recently said that what was needed was the elimination of half of them. He would not give their property and students to richer institutions in distant states, but simply double up at home. But unfortunately many people regard a college as only a means of boosting business and real estate.

There are some men who can always find time for pleasure, but their duties are neglected for want of time.

Not for a long time has the country owned so brilliant a gallery of ex-presidents as it now possesses.

Doings In Social and Club Circles

SACRIFICE SOCIAL

On Occasion of Much Fun and Loving Service at Mrs. Norton's

Those who think "you can't have fun at a church social" ought to have attended the one at Mrs. Norton's yesterday afternoon—at Mrs. Logan Norton's, 511 South Arch street. Mrs. Norton was hostess to the First Section of the Congregational Ladies' Aid Society, the occasion being a sacrifice social. It is something else, too—a St. Patrick affair—and you may figure out an analogy for yourself.

Mrs. E. M. Nealley is leader of the first section, and whenever or wherever that clever and devoted woman is leader there is sure to be something doing.

The whole affair was a joke—no, it all, either—the money was no joke and the spirit in which it was given was full of love and hope and faith.

A story about "Pat and His Wife" had been prepared, containing many words only the first syllable of which, —, was given, and each person is required to fill out the pattern. Mrs. Baumgartner took the prize in this contest, missing only one word. Pat's wife's name which is given as Pat—, was really Patience, but Mrs. Baumgartner rendered it Patsy—she thought Pat and Patsy sounded "so cute." Here is a story as filled out by the prize winner:

Pat and His Wife
Pat was an Irishman on his paternal side. He was a patriot with a patriotic air, although somewhat patinizing. His wife's name was Patsy, and she belonged to our side of the Ladies' Aid. To save money for the sacrifice social she patched her clothes and sold patchwork quilts made after the Log Cabin pattern.

On the day of the social they were talking down the path to Mrs. Norton's when the rain began to patter on their devoted pates. Pat was a patriotic soldier and didn't mind the rain, but Patsy broke down completely. It was a pathetic case. They had to take her to Patton in the trol wagon. This did not use up much of their patrimony, as she was patient, Patsy, and dutifully took the tent medicines and soon recovered soup and chicken pates. After this she did not patronize the Ladies' Aid, and they went on a trip to Patagonia. In politics she was a stand-pat Democrat.

As a very suitable reward for this patriotic literary and intellectual feat Mrs. Baumgartner was awarded as prize a snow-white pipe of purest Irish serene, decorated with the green ribbon "that ever was green."

Mrs. Cloyes received as consolation prize a lemon-pig or a pig-lemon with toothpick legs.

It is probable that Mrs. Cloyes had much harder time missing the right words than Mrs. Baumgartner did in hitting them. (Now will you be good, Oh, wife of mine! and pass up to me the job you promised to do yourself?)

But say, you ought to have heard them poems. Everyone had to tell verse of the sacrifice by which he was enabled to give his mite to a society's fund. Most of the verses were so bad that it was plain to be seen that the authors were writing in a spirit of flagrant burlesque. Here are some of the worst of some of the best—you say which is half:

"I give it freely; I give it freely; I will help the Aid, and please Mrs. Nealley;

"I never do I care for that—Mrs. Milton.

"I earned my money by making angel cake; I beat those eggs until my arms did ache; I baked it in the over a nice light brown; I am sure it was the very best cake in town—Mrs. Palmer.

"I did this week; I did this week; I did a whole pound of butter, and did not have a mite to eat. One of the family looked around and wondered why.

I did not say a word but looked up to my husband and kinda winked my eye.—Mrs. Travis.

I hope you will accept this fifty cents of mine.

And please do not make me pay a fine;

A sacrifice I could not make; I did a little sewing I did take.

Now friends, you know how my fifty cents was made

To help the First Section of the Ladies' Aid.—Mrs. Norton.

This dollar by Mrs. Pendleton given, Represents no sacrifice under Heaven. She simply took it from her purse, And got poor me to write this verse.—Mrs. Nealley.

When the Congregational Ladies' Aid were planning on how some money to make,

A Sacrifice Social—twas the very thing,

Though self-denial, of course, it would take.

The question now rose, what course to pursue?

Shall I do without sugar, cake and tea?

But to save thereby even a dollar Would be far too trying, do you not see?

Shall I walk to town, both there and back—

And save on the car fare and gasoline?

Some other plan would be better, quite,

One needing less effort, is what I mean.

While pondering over a woman's fate Of raising money for the church's sake,

Says Mr. O., with a very long face, A dollar I'll give if you'll make a cake.

A cake of feathery lightness, delicate taste,

Of bright golden hue, with the icing thick.

So here is the cash, for you may think

I accepted that offer good and quick.—Mrs. O'Brien.

The way I earned my dollar Is a way you all can follow,

(Now what do you think of that for poetic license?)

For you have to have clean clothing every day.

I earned my dollar by washing clothes—

Now you tony people need not turn up your nose.

(What about that universal nose?) It was my own clothes I washed and it was such fun

To sit down and rest when my washing was done.—Mrs. Baumgartner.

Mrs. Norton's pretty home was appropriately and tastefully decorated for the occasion with feathery ferns, and Irish "praties" pendant from green ribbons, and at the close of the exercises delicious ice cream and cake were served. There now! I've forgotten whether that ice cream and cake were green or white.

How much money was raised? Lord love you, I don't know or care. It's not the amount, but the spirit in which it is given that is well-pleasing in the sight of the Master. And the spirit was that of love and devotion one to another and to the Master.

Joyfully Entertained

Mirth, merriment, and melody enchanted the boys and girls at the Detention Home last evening, thanks to the interested young men and women of the Christian Endeavor Society of the First Presbyterian Church, who visited the institution and conducted an entertainment that will long be remembered with exceptional pleasure by all the guests.

These visits to the home have resulted from the suggestion of Secretary Hamilton of the Y.M.C.A., where these really jolly affairs are held at the institution for the pleasure of the residents. Last night there were interesting and amusing stereoscopic views and games, with popcorn and candy served by the Endeavorers.

Economics Section

Mrs. C. F. Crose, Mrs. Theo. Lacy and Mrs. Willets of Orange were the entertaining hostesses for the Third Household Economics class yesterday afternoon at the Cypress street home of Mrs. Crose. There were twenty ladies present and all were able to give good suggestions on "Bread and Butter," the subject for discussion. Mrs. Lacy read a paper on "How to Test Butter and the Best Method of Making Bread."

Hot bran gems with butter, coffee, salad and butter sandwiches were served on individual trays, candy eggs in tiny baskets being the Easter favors. Following the refreshments Mrs. C. F. Crose and Mrs. W. H. Crose delighted the ladies with music. Mrs. E. H. Prince, vice president, presided over the afternoon meeting.

Will Read His Own Poem

The wonderful poem, "God of the Open Year," written by Henry Van Dyke and read each year at the Easter services on Mt. Rubidoux near Riverside, will tomorrow be read by Dr. Van Dyke himself at a special Easter service to be held on the mountain at 4 o'clock in the morning.

The annual sunrise Easter services on Mount Rubidoux, free from narrowness and bigotry in religious matters, was begun on Easter Sunday morning, 1909.

The Billy Club

The "Billy Club" met last Thursday afternoon with Mrs. Ray Wilson on Ross street. The afternoon hours were quickly passed with fancy work and conversation after which a delightful two course luncheon was served.

Those present were Mesdames Chet Nuckolls, Flake, Smith, Jesse Elliott, Clarence Tedford, Guy McDonough and Joe Babbitt.

The bride's mother was present, as were the parents of the groom.

GREEN ROSES
FLOURISHING
ON THIS BUSH

Beautiful green roses are the latest product of the marvelous fertility and surpassing grandeur of the salubrious climate of Santa Ana.

These roses of emerald hue are as perfectly formed as Jacqueminots or La Frances, have a fragrance all their own, and bid fair to become the favorite of fickle popular fancy.

J. M. McNeil, of 322 Chestnut avenue, is the owner of the bush upon which these roses grew.

To Mr. McNeil the color of the flowers is nothing unusual for he has been finding green roses upon this bush for about three years. He has named it "Rose of Flora."

Mrs. O. H. Maryatt has presented a magnificent bouquet of large roses to the exhibit room of the chamber of commerce, and George O. Brown of Tustin has added an extra sized comb of honey. Similar gifts will also be acceptable.

Comparative
Digestibility
of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68¾ Per Cent. Digested

Bread made with
alum powder:

67¾ Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

BEET SUGAR MEN FIGHT TARIFF REDUCTION

Facts and Figures Are Being
Prepared for Information
of New Congress

LOS ANGELES, March 22.—Determined if possible to prove the injury that will come from the entire removal of tariff on sugar, members of the Pacific Slope Beet Sugar Association met yesterday at the Alexandria to assist in the compilation of statistics which will be sent to Washington to demonstrate the possibility of an industry yielding millions to the farmers, the shippers and the manufacturers being entirely destroyed by hasty action.

"No state will suffer more than California if the duty is entirely removed," said John L. Howard, president of the association, who is also president of the Union and Alameda Sugar factory at Alameda. "The exact loss would be incalculable off-hand, but it would run into millions of dollars if the factories were closed, as that would mean discontinuance of planting thousands of acres to beets and would deprive the farmer of this great revenue."

In order to make a comprehensive and correct report on all of these things when the matter is placed before Congress, the association members are preparing a concise, comprehensive table of authentic figures. Other matters of technical interest were discussed.

The value of a beet sugar factory to a community was discussed at length, bringing out the relation of such an enterprise to a district. The increase in the value of land, the increase in land rentals, the value of a heavier pay-roll in a community, growing bank clearings and other interesting phases of the situation were developed. Questions of mechanical appliances used in factories, the matter of getting full value out of waste waters, and other subjects were discussed in papers by members.

The meeting was presided over by Howard. Other officers present were W. H. Hannam, vice-president, San Francisco; Robert Oxnard, secretary-treasurer, San Francisco. About forty sugar men attended. The convention will not be adjourned until next Wednesday, although some of the time will be given over to visiting beet sugar plants.

MABEL WILBER
In "The Merry Widow," at the Grand Opera House, Tuesday, March 25

AMUSEMENTS

Mabel Wilber's Career
Mabel Wilber, who will play the titular role in "The Merry Widow" at the Grand Opera House, Tuesday, March 25, is credited generally the best of the numerous prima donnas who have appeared in this famous role under the managerial direction of Henry W. Savage.

Miss Wilber's first public appearance as a singer occurred when she was 9 years old and a pupil at St. Mary's School in Rochester, N. Y., where she appeared in a musical piece with a boy of her own age, singing a duet called "Under the Old Umbrella." One year later, a little fair-haired, blue-eyed girl, 10 years of age, she modestly appeared on the platform of the old Washington Park in Rochester, singing with the child's treble of ten years, "Kissing Pop Through the Telephone," and then, glistening nervously in response to a vociferous encore, she picked out a Spanish serenade on her tiny mandolin.

At the age of 26, Mabel Wilber, the fair-haired tot of sixteen years ago, is the fascinating "Merry Widow" of today, the youngest prima donna who has ever sung the charming role. Miss Wilber was born in Lockport, N. Y. Her parents moved to Rochester before she was two years old. As she grew older her voice developed, and when she was 16 years of age, the Wilbur-Kirwin Opera Company came to Rochester for a short repertoire season. During their engagement some members of the company stopped at the home of John Lenahan in Rochester. The Lenahan and Wilber families were friends, and, during a visit to the former one Sunday night, Miss Mabel sang for the professional folk. Struck by the rich quality of her voice the players arranged an appointment for Susie Kirwin, prima donna of the opera company, to hear Miss Wilber sing. The result was that Miss Kirwin immediately interviewed Miss Wilber's parents and gained their consent to Mabel's appearance in the chorus of the organization during its Rochester season. Her vocal and dramatic future loomed so promisingly that she remained with the company and was appointed understudy to Miss Kirwin, whose leading roles Miss Wilber sang on several occasions during the first season of her professional career. After two years with the Wilbur-Kirwin Opera Company, Miss Wilber joined the forces of Henry W. Savage and was given a small role in "The Sultan of Sulu," whence she was subsequently transferred to "The Prince of Pilsen." When "The Prince of Pilsen" invaded England, Mr. Savage selected Miss Wilber as a member of the troupe, and she played for six months in London. Returning to this country, she was engaged by DeWolf Hopper as his prima donna in "Happyland," and after a year with this production she appeared as prima donna with Richard Golden in "The Tourists." She next appeared in "The Song Birds," a vaudeville skit, burlesquing the grand opera rivalry of Heinrich Corried and Oscar Hammerstein. After this engagement she returned to the managerial direction of Henry W. Savage and was assigned to "The Merry Widow." In this remarkable operetta Miss Wilber sang every feminine role

until she was given an opportunity in the titular part.

Her success as prima donna was so decided that Mr. Savage placed her at the head of the picked organization which made a transcontinental tour from New York to San Francisco two seasons ago, and this year placed her at the head of his chief company playing "The Merry Widow."

Indians in Grand Opera

Strange as it may seem, and many will say: "Why, I never heard of the like, Indians singing grand opera, and in French, German, Italian and English," nevertheless it is a fact, and tonight and Sunday night you will have your last opportunity to hear and see these seven full-blooded Indians in opera numbers, and one of the most novel acts before the public. There is no act in the world like that given by Mlle Toona's seven nations of Indians. Manager Roberts has added all new pictures for the rest of the week and the show is the best of its kind ever brought to Santa Ana. Those who can, had better come early. Remember, at the Bell, Saturday and Sunday nights.

Prof. Clark's Lecture
"Man's inhumanity to man makes countless thousands mourn."

Read Victor Hugo's great masterpiece, "Les Misérables," for a graphic exposition of this terrible truth, or come to the opera house the evening of March 26, and hear it read by one of America's greatest dramatic readers of the present time, Professor Clark of Chicago University.

The girls' glee club of the Santa Ana High School has become one of the most popular branches in the school. Under Miss Ely's direction, through faithful practice, the girls have made it a decided success. They will be heard at the Clark lecture on Wednesday evening in "The Gypsy Chorus," from "The Bohemian Girl." Next to Shakespeare's, and equal to a great many of his characters, Jean Val Jean in "Les Misérables" is the greatest character in fiction. He was a common peasant lad; for a very slight offense made a galley slave on the prison ship with the worst possible criminals. He escaped and became an escaped convict, and all the rest of his life was haunted by the French police. "Les Misérables" tells of his struggles in trying to live a reformed life while persecuted by the police.

Former Santa Anan Is Now Located

At Phoenix, in Land Business

—Wm. Besser, formerly of Santa Ana, writes that he is now located permanently at Phoenix, Arizona, where he has associated himself with the Arizona Irrigated Land Co., and invites all his old friends of Santa Ana and Orange county to make his office their headquarters when in Phoenix. Mr. Besser writes that he has already purchased a large tract of land himself and sees so many former Santa Ana and Orange county people on the streets of Phoenix that he feels thoroughly at home.—Adv.

LOS ANGELES PRODUCE MARKET

A falling off of 1 cent in prices of Red Crown gasoline, engine distillate and naphtha was announced yesterday. The causes generally assigned for the decline are the increasing production of light oil and better methods of refining.

Oranges are firmer owing to the increasing consumption in nearly all parts of the country. The demand in the East grows as spring advances. Apple receipts were heavy, and the market gives every indication of remaining at present low prices for some time. It is believed that the demand for citrus fruit has improved a shade during the week. Quotations were a little cheaper in some instances, being quoted as low as 10 cents a pound. The price will probably decline more in a short time.

Potato receipts were rather light, but the market remains pretty easy. Fresh onions are comparatively scarce, no receipts having been reported the last few days. There is a good supply of storage, however. Asparagus continues at about the same prices and is more plentiful. Receipts of rhubarb improve. The tomato supply is cut off, and only a few boxes have been on the market the last few days. When the next shipment will be received is rather problematical.

Ranch eggs, case count, dozen, 20¢; northern, case count, 20¢; Petaluma, Santa Rosa, extras, 21¢. Selling price for candied eggs 3 cents in advance of quotations. California creamery butter, extras, 35¢; domestic, firsts, 35¢.

DECLARES THAT COMMERCIALISM CHIEF FEATURE

The Santa Ana Record has an article written by Rev. W. H. Wotton, rector of All Saints Church of South Pasadena, formerly rector of the Church of the Messiah in Santa Ana, on the film, "From the Manger to the Cross," which film was reproduced here.

Rev. Wotton says: "The pictures are very beautiful and are reverently presented. But it is difficult to escape the idea of commercialism, and we resent it in connection with religion. They are more and more open to criticism as they progress. The first few are exquisite, but simply the development of the ideas given to us in our childhood. But the later presentations are nothing more than that of a mere wonder worker. A few of the more prominent miracles are represented, and it is made to appear that this was the main object of his life. Nothing of the underlying purpose, nor of the spiritual

meaning is or can be presented in this manner—nothing to lead one to the knowledge that in the beginning was THE WORD. More, there is surely nothing in this to convince a thoughtful skeptic that the Christ is the Divine Being he claims to be. I deny therefore the claim that this presentation is educative. If I knew nothing of the personality I might marvel, but I should certainly not worship. This is not the Christ upon whom I could rest in the great crises, certainly not in the hour of death. Spiritual instinct tells me that it is all wrong, and that this is not the Christ of the Christian religion.

"The last scenes in my judgment should be suppressed. They are brutally realistic. It is merely the figure of a pathetic sufferer, unable to resist the material power opposed to him. There is no suggestion of his actual triumph of the voluntariness of his surrender."

GROUND SQUIRRELS COMMAND MARKET

ANAHEIM, Mar. 22.—Killing ground squirrels for the Los Angeles market is the latest industry in this county. T. N. Hunter, who is engaged in the new vocation, stated that Los Angeles offered a good market at \$2.50 per dozen, and that he was making good money at his work. The ground squirrel has never been regarded very highly as a marketable product, although the meat is considered palatable. The principal objection to killing squirrels for eating purposes is that the promiscuous use of poison by farmers in attempts to rid their lands of the destructive rodents, makes it dangerous to eat them. Hunter, however, is hunting in sections where he knows that no poison has been put out, and therefore has no hesitancy in placing his game upon the market.

GOING AHEAD WITH PLANS FOR HOTEL

"We are going ahead nicely with the plans for a new hotel," said S. J. Jackson this morning. "Nearly every day we find some one who believes we should have a new, first-class hotel here, and they show their faith by joining the syndicate." Mr. Jackson said there are now 35 men who have signed the agreement to take stock in the new enterprise.

ORANGE, March 22.—In an unconscious condition, a man named L. A. Ehaam, who travels out of San Francisco as the representative of the Oliver Typewriter company, was found lying on the road near El Toro yesterday afternoon.

A short distance away was his motorcycle, bearing mute evidence that the senseless form had met with a bad slip. Shaam was badly bruised, his face was severely cut and he had a bad gash over one eye. He was brought to this city where he is a guest at the Rochester hotel. He says he doesn't know what happened, but it is supposed he struck a rock or some other obstacle and was ditched.

2,300,000 ACRES OF LAND INVOLVED

United States Senator From the
State of Oregon Shows
Signs of Life

WASHINGTON, March 22.—When Senator Harry Lane called in company with Congressman Lafferty and Senator and National Committeeman King of Oregon, upon Assistant Attorney General Knaebel the other day to ask that a federal suit against the Southern Pacific railroad interests be pressed, he let that official know just what sort of a senator he will be for the coming six years.

"We want this case really prosecuted," he said in substance. "We want the land grant of 3,100,000 acres made to the California and Oregon railroad company in 1869 and 1870 annulled, because the land has not been sold at \$2.50 an acre nor to actual settlers not in maximum areas of 160 acres, as the grant provides. We want to recover for the people the 2,300,000 acres still held by the Harriman interests. The suit was started six years ago, and it is time it were brought to trial. The fact that the railroads have been able to hold this land through their influence has brought me to the senate, though Oregon has a Republican majority of 80,000. It keeps on getting no better, the Socialists will get the state next time."

BREAKS COLORBONE IN THREE PLACES

ORANGE, March 22.—George Kingsbury stepped from a box car on the Santa Fe railroad to a wagon, upon which he had been engaged in loading some goods, and in stepping upon a plank that proved to be rotten, he fell through the vehicle and sustained a fractured collarbone. In fact he sustained three fractures in the one collarbone. Kingsbury is an employee of the Los Angeles Paving company.

SANTA ANA WINS AND ALSO LOSES

Local Debate Decision Awarded
to Home Speakers—Manual
Arts Won in Los Angeles

Santa Ana High School, represented by Martin Greathouse and Selwyn Sharp, won from Manual Arts school of Los Angeles last night, the debate on the subject, "Resolved, that in all labor disputes and other like troubles, between capital and labor, the points at issue should be settled by arbitration," took place in the high school and was well handled by both sides. The Santa Ana debaters, Malcolm Telford and Lenox Covington, did not fare so well in the Los Angeles section of the simultaneous debate, held last evening in Los Angeles, the judges giving the Manual Arts speakers the decision. The Santa Ana men, however, made good in argument and were considered by many to have been winners on almost all points.

M'COMBS FINALLY DECLINES FRENCH AMBASSADORSHIP

WASHINGTON, March 22.—William F. McCombs last night finally and emphatically declined the ambassadorship to France. He told President Wilson last evening that he could not afford to make the sacrifice that the position would necessitate. In a statement issued last night McCombs said: "After reconsidering the tender, the same motives that were in my mind before have impelled me to decline. The acceptance of the post would involve greater sacrifice than I should make."
